

GUBI

A UNIVERSE OF FLOURISHING STORIES

In the vibrating play from the natural Scandinavian light, entering through the generous sized windows, our collection of novelties and existing design icons with new expressions come to life. Stories inspired by the Scandinavian 19th century realism and symbolism as well as Chinese Art Deco, create the perfect frame for contrasts to flourish. With oriental fabrics in soft tones and a warm palette of golds, naturals and bordeaux, together with harmonious touches of black chrome, brass, marble, coloured glass and wood add up the ambience of this autumn's presentation of the GUBI universe.
